

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

LIST
OF
BIBLIOGRAPHICAL WORKS
IN
THE READING ROOM
OF
THE BRITISH MUSEUM.

SECOND EDITION, REVISED.

PRINTED BY ORDER OF THE TRUSTEES.

1854

A.20030.

LONDON:
PRINTED BY WILLIAM CLOWES AND SONS, LIMITED,
STAMFORD STREET AND CHANCING CROSS.

THE first edition of this List of Bibliographical Works was drawn up in the year 1880 by the late Mr. G. W. Porter, Senior Assistant Keeper in the Department of Printed Books.

The work has now been revised, and some additions have been made, by Mr. G. K. Fortescue, Superintendent of the Reading Room. In this edition "shelf-marks" have been added to the original press-marks of all the works placed in the Bibliographical Cases.

GEO. BULLEN.

Feb. 1889.

PREFACE TO THE FIRST EDITION. 1880.

THE following list has been drawn up to facilitate the use of the collection of Special Bibliographies, Classed Catalogues, and Indexes recently placed in the Reading Room. It has been thought that such a collection might be useful to readers by indicating the works published and available for consultation in the various fields of study and research, and that it might in some degree supply the want of a classified catalogue of the Museum Library, with the further advantage of pointing out works existing elsewhere, as well as those to be found in the Museum.

In selecting the books for this purpose, it has been the aim to represent every subject, as far as space in the Reading Room admits of it. But on many topics no satisfactory bibliographical guide exists: in other cases the works existing are much behind the literature of the present time, or have never been completed. Some books will therefore be found included which only remain until they can be replaced by more efficient works.

It will be seen that the various bibliographical works standing in other parts of the Reading Room have been included with those in the extra cases in this list, for the sake of systematic arrangement and as a convenience to the readers.

The present list is chiefly confined to Bibliographies, but it may perhaps be as well to point out that much useful bibliographical assistance may be obtained from the extensive collection of biographies and literary histories in the Reading Room. How numerous these are will be seen by referring to the Index of Subjects in the published "List of

the Books of Reference " drawn up for the use of readers by Mr. Rye.*

In arranging the bibliographies in their cases, the subjects have as far as possible been made to correspond in position with those in the Library of Reference: thus the theological bibliographies will be found opposite to Theology, and the historical opposite to History.

For press-mark the extra cases are distinguished by the letters **BB.**—an abbreviation of the word bibliographies—in combination with the distinctive letters of the tables against which they are placed: thus the press-mark **BB. A.** shows that the work to which it refers will be found in the bibliographical case standing at the end of the **A** table.

G. W. PORTER.

* List of the Books of Reference in the Reading Room of the British Museum. Third edition, revised. 1889.
